I call my friends, ask advice
They all tell me; boy think twice
She hurt you once
Don't take that road again
I dress real nice, comb my hair
Knowing when I meet you there
I'll try to win you back again, even though I know

I should climb this mountain on my own
I'm sick and tired of crying all alone
I know I should be stronger and my mind says
Let i go, let it go
And I have no excuses anymore
It's time to throw my old life out the door
And I would stop this dreaming that one day you're
coming home
If I could let it go

Sitting here, I watch you smile
Makes me happy for a while
Then you tell me you're with someone new
I wipe som tears, hear you say
Plaese let go of yesterday
Don't live your life in memories
Don't keep holding on

I should climb this mountain on my own
I'm sick and tired of crying all alone
I know I should be stronger and my mind says
Let i go, let it go
And I have no excuses anymore
It's time to throw my old life out the door
And I would stop this dreaming that one day you're
coming home
If I could let you go

It would take this pain away
But my heart keeps saying no
Maybe it's a matter of time
Before you change your mind

I should climb this mountain on my own

I'm sick and tired of crying all alone
I know I should be stronger and my mind says
Let i go, let it go
And I have no excuses anymore
It's time to throw my old life out the door
And I would stop this dreaming that one day you're
coming home
If I could let it go
