

## Gaute Ormåsen "Longest Goodbye"

Visit "[Longest Goodbye](#)" on MotoLyrics.com

I never seen the lights go down in Asia  
I never seen the nights of London fall  
Now I never be the one to be outranges,  
but with you I feel it all  
I never be the one to be the latest  
the star is standing first line  
but with you I am the greatest  
something like, I can describe

And if I knew that this would be the last time,  
I was gonna fase tomorrow  
with out you by my side  
And if they say this was the end of the night,  
somehow I would know inside

REFR:

You will allways stay right on time,  
something that I never can denye  
Leave me when the day is gone,  
I'll be holding on  
And even I want see the light  
even if I come to say goodnight  
That will be the longest goodbye

I never be the one to say comepletely  
that I was gonna get my home  
But with you I know this could never be  
That I'm ready to think to fall, to fall, to fall,  
to fall, to fall

And if I knew that this would be the last time,  
I was gonna fase the night along  
with out you by my side  
And if they say this was the end of the night,  
I would never look back and cry

REFR:

You will allways stay right on time,  
something that I never can denye  
Leave me when the day is gone,  
I'll be holding on  
And even I want see the light

if I come to say goodnight  
That will be the longest goodbye

And I could tell you more than a million  
reasons why  
I would never have to give the time  
cause I passed the sign  
can't denye  
I'll be holding on  
ooooooooooh! will be the longest goodbye

REFR:  
You will allways stay right on time,  
something that I never can denye  
Leave me when the day is gone,  
I'll be holding on  
And even I want see the light  
if I come to say goodnight  
That will be the longest goodbye

You will allways stay right on time,  
something that I never can denye  
Leave me when the day is gone,  
I'll be holding on  
And even I want see the light  
(if I come to say goodnight  
That will be the longest goodbye)  
If I saaay that will be the longest goodbye
