Does it change or does it heal  
I can't repress it, can't explain how I feel  
We didn't waste a lot of time  
Just took our chances and it blew my mind

I should've asked, you should've told  
Been giving up, I've held on  
Let it flow, but now it's out of control  
I should've stayed, I should've gone  
I don't know who's right or wrong  
It's all colliding inside of my soul  
And I miss you when you're gone

I haven't lost, I haven't won  
The party's over, all is said, all is done  
I thought it'd fade to black and white  
But it didn't help to keep you out of sight

I should've asked, you should've told  
Been giving up, I've held on  
Let it flow, but now it's out of control  
I should've stayed, I should've gone  
I don't know who's right or wrong  
It's all colliding inside of my soul  
And I miss you when you're gone

It's all a mess but don't get me wrong  
Cause I might be better off this way  
And in time I'll be okay  
I just wanted you to know

I should've asked, you should've told  
Been giving up, I've held on  
Let it flow, but now it's out of control  
I should've stayed, I should've gone  
I don't know who's right or wrong  
It's all colliding inside of my soul  
And I miss you when you're gone
