I met you on a friday, sometime in the after noon  
I walking down the street, it was summer, it was early  
june  
I took no time, in a minute I was slept away, it's okay..

You took me by the hand and we walked by the trailer  
park  
We lay in the gras and we talked way of the dark  
I asked you nicely if you wanna liked to stay  
It's alright...It's okay..

Cause this is what i am, and this is what i do,  
this is what i want, I wanna be with you...  
this is what i am  
This is what i am, this is what i do  
And all i really want is to be with you  
This is what i am  
This is what i am
