Every time you take the risk you get a little bit closer
still you cannot dismiss your ideals
rely on your senses but they fail you now
you fold and drop your defenses
and that's a shame
and you do it again (x4)

Don't you know that something
don't you have half a brain
I see you round the clinic
you call that lucky
and you do it again (x4)

Remember what your momma said
seek and you shall find
quit while you're ahead
the door is open wide
and you do it again (repeated multiple times)
