Oh, this is the start of something good  
Don't you agree?  
I haven't felt like this in so many moons  
You know what I mena?  
And we can build through this destruction  
As we are standing on our feet  
So, since you want to be with me  
You'll have to follow through  
With every word you say  
And I, all I really want is you  
You to stick around  
I'll see you everyday  
But you have to follow through  
You have to follow through  
These reeling emotions they just keep me alive  
They keep me in tune  
Oh, look what I'm holding here in my fire  
This is for you  
Am I too obvious to preach it?  
You're so hypnotic on my heart  
So, since you want to be with me  
You'll have to follow through  
With every word you say  
And I, all I really want is you  
You to stick around

I'll see you everyday  
But you have to follow through  
You have to follow through  
The words you say to me are unlike anything  
That's ever been said  
And what you do to me is unlike anything  
That's ever been  
Am I too obvious to preach it?  
You're so hypnotic on my heart  
So, since you want to be with me  
You'll have to follow through  
With every word you say  
And I, all I really want is you  
(For) you to stick around  
I'll see you everyday  
But you'll have to follow through

With every word you say  
An I, all I really want is you (For) you to stick around  
I'll see everyday  
But you have to follow through  
You have to follow through  
You're gonna have to follow  
Oh, this is the start of something good  
Don't you agree?
