You don't have to be part of the problem
I just need a second chance
I just need a second chance
Instead of leaving me standing in sorrow
I know that you'll understand
I hope then you'll understand
I know that I was wrong
But just don't walk away

Chorus:

Oh won't you stay
I need you need you here
When you're with me
All others disappear
I'll follow close
So close I'll almost touch
I need your love
But it never hurt this much

I don't wanna be someone who's searching
Finally met someone
I finally met someone
There's a couple things I'm still learning
Just gotta figure out
But you need someone who knows
I came to you tonight
But now you're just walking away

Chorus

Don't get caught up in me feeling off course today
You can take a minute before you go slipping away
I know I took some time but I realized my mistake
You don't have to be part of the problem
I just need a second chance

Chorus

I need your lovin' arms at night, but it never hurt this
much
You don't have to be part of the problem
I just need a second chance
