[B-Real]

On the high seas, it's the pirate  
With the musket  
At'cha head, and I'll fire it  
"It's the return of the Red Beard!"  
And Polly don't want a cracka'  
I'm gonna make you back up  
With the wind in the sail  
Destination on to the temple  
Where the boom lies in the ?bin full?  
Outlaws ridin' beside me  
I see a ship on the horizon  
Comin' up, and I'm realizin'  
It's time for another uprisin'  
I'm manin' this attack by suprise n'  
"Avast mates, fire up the cannon"  
Right on the enemy's vessel it's landin'!  
Look at all these ships sinkin' low, and goin' down  
With the captain, that's goin' under  
Let no man put us under  
When me and my ship's rollin' like thunder

(hook)

Ghost rida'  
On the seven seas fiya'  
Pump that cannon when the flames get higha'  
(x4)

I'm still on the high seas  
Smellin' that salt of the ocean breeze  
Feelin' that heat of the sun on my face with a 'Yo Ho Ho  
and a bottle of rum'  
When you see my flag in the distance  
You better run and call for assistance  
"Cuz we're comin' on the pillage,  
Killin' all the men, and takin' all the gold and the riches  
in the village"  
"Pull up the anchor! Swap with the bounty!"  
Headin' for the east where my enemies hound me  
They wanna hang me for high treason and chivalry  
And for many other reasons

Wanted dead, and a handsome reward for any  
motherfucker who delivers my head  
"Shiver me timbers!"  
I'll burn your bloody ass to a cinder  
So all you motherfuckers remember

(hook)

[Sen Dog]

Think of the many moons I been away from home  
On the seven seas or wherever I roam  
Black Beard takin' you down to the galley  
How does it feel with my sword in your belly  
You can face the cold shank  
Or get ?blind funk it? when I'm makin' you walk the  
plank  
Standin' over the edge in the dark

B: "Feed his bloody ass to the God damn sharks!"

Sen: The sound of a neck bone snappin' is what'cha in  
fo'  
When ya on ya way to the sea flo'

B: "Sixteen men on a dead man's chest"

Sen: I killed them fools and I'll kill the rest

B: "I am what I am!"

Sen: And I'm not a land lubba'  
When ya hear the musket, you all take cova'

B: "Fire one, fire two, fire three!  
Don't ever forget about me!"

Sen: 'Cause I'm the ghost rider' on the storm  
Keepin' the cannons warm

(hook)
