Pain I had as a child
Dark sky I knew for a while
Thoughts I have as a man
Take me back there again
Could I forgive you
I know that I can
Could I survive you
I think that I have
Well I burned all the bad news
That was a weight off my mind
That was a weight off my mind

Pain take a look at me now
See me back from the blue
Shake the dust from my shoes
Only the hurt there to harm you
Peace be easy
I know you could use it
It wasn't that hard getting by without it
I burned all the bad news
And that was a weight off my mind
A weight off my mind
You've got your trouble in mind
You've got your trouble in mind
Trouble in mind
You've got your trouble in mind
Trouble in mind
Trouble in mind
