(Verse 1)

Got my X-rays back today diagnosed with a classic
case of heartbreak it was
Heartbreak doctor said I'll need a shot of cupid's arrow
right through my
Heart it's swollen it was swollen.

(Pre-Chorus)

Baby kissing you is over do
Maybe I'm missing my prescription of you.

(Chorus)

Crying cause I'm sickly in love
Coughing cause you infected my blood
103 degrees beneath my tongue
I'm dying cause I'm sickly in love.

(Verse 2)

This medicine has side effects I'm the subject of this
test it's not
Working it's not working these hallucinations never
stop I see you there
When you are not I'm trippin where are you.

Pre-Chorus

Chorus

(Bridge)

I'm waiting for the day when I don't have wait to more
when these dreams
Stop knocking at my door.

Chorus
