I see the setting sun,

He's no friend of anyone,

Won't save the drowning man,

Who will here me call but he don't understand,

An you know what it's like when you reach the end,

You make your peace and you slip away,
Breathe easy,

You know,

Your way is clear,

Breathe in again,

Your way is clear,

Your way is free,

Yeah,

Yeah,

Yeah,
Don't wanna bring you down,

We got troubled skies,

Don't wanna speak my mind,

The world forever bails,

But you know what it's like when you reach the end,

Say your piece and you turn again,
Breathe easy,

You know,

Your way is clear,
Breathe in again,
Your way is clear,
Your way is down,
Down,
Down,
Down,
I see a rising star,
Shine on new wide sail,
I'm gonna break on through,
These lies across the table,
But you know what its like when you reach the end,
Say your piece and you turn again,
Breathe easy,
You know,
Your way is clear,
Breathe in again,
Your way is clear,
Your way is free,
Yeah,
Yeah,
Yeah,
Breathe again,
Again,
Your way is done,
