Don't you ever wonder, why we always break the same way?

Fix it up and go again, cos' nothing ever stays the same,

Swinging for a main attraction, get you where you need to be,

Silver beats slide through your body, like to feel them running free,

I see you,

Inside of me,

Yeah,

Dimstar, so beautiful,

You don't have to wait,

Shine before your faith,

Dimstar, stay beautiful

You don't have to wait,

The end is just a breath away,

Moving through the city exit, looking to the other side,

If happiness is easy, you can step on through it's open wide,

Burning up inside yourself, deep within a frozen smile,

Who's to say it wasn't right? Really don't remember why,

I see you,

I know you,

Yeah,

Dimstar, stay beautiful,

You don't have to wait

Shine before your face,

Dimstar, so beautiful

You don't have to wait,

The end is just a breath away,

If you're feeling dragged around,

You know I'm there to make it easy,

Just the sound of screaming people,

Want a piece of you for keeps,

So give them what they think they need, you,

Dark out for a city skyline, latitude is all we need,

Shadow lost in conversation, vanity is bleeding me,

I see you,

I inside of me,

Yeah,

Dimstar, stay beautiful,

You don't have to wait

Shine before your face,

Dimstar, so beautiful

You don't have to wait,

The end is just a breath away,

The end is just a breath away,

And you love me to,
