You will survive,
Car crashing all the time,
This is what they say,
Took his eyes off the road again,
Vision,
Turn the lights right down,
Let it run right through me,
Run right through me,
On and on and on and on,
Anyway you choose,
Still got a reason to make some changes,
Anyway you choose,
You're not alone,
Lights on green,
Lost you somewhere in between,
Change on red,
Different colours in my head,
And drifting, sailing, way beyond my time,
Feel you, touch me,
And melt the fire away,
Now visions,
When the lights go low,
Let it run right through me,

Run right through me,

On and on and on and on,
Anyway you choose,

Still got a reason to make some changes,

Anyway you choose,

You're not alone,
Everything's changing again,

Everything's changing again,

Everything's changing again,

Everything's changing again,
