Keep it heavy,

Keep it heavy,

Days go free,

In this century of mine,

Wasting years in the,

Bubble of minds eye,

Wonder why,

Cos' you might need somebody,

You might need a friend to help you out,

Bring you down now,

You might need an alibi,

Count on me I'll never let you down,

Let you down,

So, keep it heavy,

When you feel it now come on,

Keep it heavy,

When you hit that higher state,

Keep it heavy,

Walk you by your brothers side,

Keep it heavy,

Can you fight that low?

Years go by and the question why I need you,

Making time for an easy way of life,

Wonder why,
Well I'm telling you,

You might need somebody,

You might need a friend to help you out,

Bring you down now,

You might need a change of scene,

Count on me I'll never let you down,

Let you down,

Let you down,

Bring you down,
So, keep it heavy,

When you feel it now come on,

Keep it heavy,

When you hit that higher state,

Keep it heavy,

Walk you by your brothers side,

Keep it heavy,

Can you fight that low?
So, keep it heavy,

When you feel it now come on,

Keep it heavy,

When you hit that higher state,

Keep it heavy,

Walk you by your brothers side,

Keep it heavy,

Can you fight that low?
