So long, over the light
So long, to the nameless freedom
So long, swallow the anxieties
So long, jump higher than the others

Tear off the holy wing, jump, bursting the eyes
Even if HEAVEN is covered with mud, it becomes a
paradise
When we live in it.
Carry on the daily life with gold plating coming off the
Shoulders and gathering monotonous howls
Although the wound is digging in, keep on going.
Yeah, the realities in front of your eyes are everything

So long, break the darkness
So long, to the nameless freedom
So long, swallow the anxieties
So long, shaking heart beat

LOOP ask myself, LOOP hate myself
At the end of this suffering of LOOP, I'm looking
At HEAVEN'S DOOR

A bird which belongs to a flock to the west will
eventually
Feel loneliness
Looking at the thin wing and you said: "Are there
Everything you desired?"
The view which everyone saw is worse than the end
Of the world getting dark
And I deeply prayed to a vanishing candle.

In deep, slow sky.
You can stay there, if you are afraid of the unknown
future.
That's what the forgotten "Nameless Liberty"
Used to say.

Now light is poured here, swearing not to escape
From the unsettled future
