Machines have loved me all of my life,

Unofficial energy keeping me alive,

I let them teach me how to pass the time,

They only want whats best for you,  
Oh future days are here,

My dreaming days are gone,  
Now, always and forever,

Stay loved,

Stay together,

Now, always and forever,

We will learn,

To live together,  
Machines will care for me all through my life,

I hear them calling out my name,

And in there innocence they heal my troubled mind,

They only want whats best for you,  
Oh future days are here,

My dreaming days are gone,  
Now, always and forever,

Stay loved,

Stay together,

Now, always and forever,

She's a crying,

She's a crying,

I close my eyes,  
On the real me,  
I close my eyes,  
Break connection,  
Now I'm gone,  
Always and forever,  
Stay loved,  
And live forever,  
Now, always and forever,  
We will die,  
to sleep together,  
live together,  
sleep together,  
sleep together,  
together,  
live together,  
machines,  
alright,
