baby I don't practice sangria | maybe what he had was
just green horn | every fucking day a thousand pools
are being born | do you have the time to listen to my
wine | under the fridge I give it away | I guess I have to
love with it every single day | copy and paste |
recycling waste | familiar sound | bad aftertaste | now I
wanna sniff some paint remover | that is the
impression that I bet | man I saw your dummy and your
dummy was dead | do you spend your holidays in the
sun? | could you tell me what's my rage again? | we
have no control because we read American | copy and
paste | recycling waste | familiar sound | bad aftertaste
| one-two-three-four | IÃfÂçâ, ¬Â™ ve heard that before
| everybody likes some good clonecore | hey, why do
you all castrate your creativity? | IÃfÂçâ, ¬Â™ ve heard
that before | everybody likes some good clonecore |
hey, why do you all castrate your creativity? | copy and
paste | recycling waste | familiar sound | bad aftertaste
| IÃfÂçâ, ¬Â™ ve heard that before
