i hate misery | when it grabs hold of me | won't soak
myself in it | kick it hard and run | can't see what's in it |
to feel like a piece of shit | this sullenness ain't my idea
of good fun | your moan won't get you anywhere | life's
not fair | your moan gets you nowhere | your moan
won't get you anywhere | life's not fair | your moan will
never ever get you there | would be a lie to say | that
i'm laughing all day | i'm fucked as you | but retained
some self-respect | search a strategy | to recreate
some harmony | you may enjoy dejection | baby, i don't
| your moan won't get you anywhere | life's not fair |
your moan gets you nowhere | your moan won't get you
anywhere | life's not fair | your moan will never ever get
you there
