Shalalala-shalalala-shalalala
It's not a real good reason
To play the fool and tease'em
You ought to know much better
Don't let them take you for a ride
So walk away from yesterday
Your friends would say
On a day like today
In the mood to be gay
We'll be able to play
Among friends what you say
Shalalala.....
This ain't the way you keep'em
>From being bad boy sinners
You ought to teach'em manners
Friendship is all that matters
So walk away from yesterday
Your friend would say..
On a day like today
In the mood to be gay
We'll be able to play
Among friend what you say
Shalalala.....
So walk away from yesterday
Your friends would say..
On a day like today
In the mood to be gay
We'll be able to play
Among friends what you say
On a day like today
In the mood to be gay
Together forever
In a world full of pain
Shalalala.....
