I still don't understand anything 15th time eyes black
cherry*
What shakes the fruit is undoubtedly your silhouette

Even non-resisting I will become wet due to you black
cherry
What I'm looking for is not love but the lust that's lying
next to me and my mother

Prohibited education.

It is mother's love that feels in genitals?
Or the sexual desire?
[I don't know the method of the tie to you excluding this
act]

Suger pain... please sweet suger pain mother
I can't sleep, extent of pain so that I never forget you
again
Suger pain... please sweet suger pain mother
With my tongue I will **... this body that you gave to me
Suger pain... please sweet suger pain mother
More than trying to get your love, I want to feel you so
much that my sanity rips apart
