All I know is that I gotta take it solw
Meanwhile IÂ've been sitting by the phone
For too long IÂ've been looking high and low
For someone who believes in mother love
IÂ've been tricked again confused with no way out of
this
So I cry myself to sleep till break of down
IÂ've been cheated defeated an mistreated

So love can turn its back on me once more
When I see you around
Somewhere in this town
When I see you around
Baby donÂ't say you love me
When I see you around somewhere in this town
When I see you around
Baby donÂ't say you love me
Baby donÂ't say you love me
All I know is that tomorrow stands alone
And might take us for a ride until we fall
Send hellos some greetings from a far
Saying some day you gonna be a star
IÂ've been wishing for maybe one day I will be
Strong
And stop crying myself to sleep till break of down
Â'cause IÂ've been cheated defeated and mistreated
so love wonÂ't turn its back on me once more
When I see you around
Somewhere in this town
When I see you around
Baby donÂ't say you love me
When I see you around
Somewhere in this town
When I see you around
Baby donÂ't say you love me
Baby donÂ't say you love me
