"Upside Down"

You may believe that your house is bleak and you're
leaving
But there's a gulf between what it is that you see
and what you should be seeing

You may believe that your house is bleak and you're
leaving
But there's a gulf between what it is that you see
and what you should be seeing

And you open like a flower
And I open too
I have found that what you seek
Is the perfect flower and it is in you,
And I only wish you knew

The way I see it (What do you see?)
The world is upside down (Upside down?)
Is it me? (Can it be?)
Or is it in your hands?

So go on now sweet prince
And let me lead you on
And close your eyes to blindly look at the sun
You fall below the silver screen
Of knowledge, it's a perfect dream

Rubicon's old bridges burn
You turn, they are ablaze
Great divide is getting bigger

Home to no one, you are are nowhere
The Sandman takes you there
You'll be sleeping on the pillow
Where the night becomes her hair
Climbing through the buttonhole
And falling up the stairs
Go on go on go on

So go on now sweet prince
And let me lead you on

Close your eyes to blindly look at the sun
