"Dear Mr. President"

Visit "[Dear Mr. President](#)" on MotoLyrics.com

I hope you got my message Mr. President
It seems you would take any fools advice
And if you hold your truths to be self evident
Then we have really got ourselves a fight

You and me we're very different animals
But theres one thing on which we can agree
It's you that got us in this situation
The worst its ever been in history

Dear. Mr. President
I hope you got a plan to make things right
Dear Mr. President
'cause I just wanna get some sleep tonight

It isn't whether we should have the right to choose
It's not about the price of gasoline,
The sex of every couple isn't your concern
When it's the killing and the lies that are obscene

So tell me do your ever stop to wonder
Wonder if youre wrong or if youre right?
The hypnotic state that you have got the masses in.
They have just awakened from tonight

Dear. Mr. President
I hope you got a plan to make things right
Dear Mr. President
'cause I just wanna get some sleep tonight
I just wanna get some sleep tonight
I just wanna get some sleep tonight
