Big women,  
I like the size,  
Big women flabby thighs.  
Big women, big women, big women...  
They fill my eyes!

Here they come,  
Walking down the street,  
Big and bouncy look so neat.  
I like them best between the sheets,  
Big women give me a treat.

Big women,  
I like the size,  
Big women flabby thighs.  
Big women, big women, big women...  
They fill my eyes!

Skinny wenches will not do,  
I need a big one to see me through.  
I've gotta get some meat  
To see me through the night,  
In the morning I feel alright!!!

Big women,  
I like the size,  
Big women flabby thighs.  
Big women, big women, big women...  
They fill my eyes!
