"Superhighway Robbery"

Visit "Superhighway Robbery" on MotoLyrics.com

I took a swandive out of innocence and landed on the
Screen
This ain't no game boy, this is now superhighway
Robbery
The net was closing in on me, I had to make a break
Like a mouse caught in a trap it's something you can't
Fake

Y2K - technology's taking over
Y2K - electronic rollercoaster

The future's out there someone said but you've gotta
Find it first
I learned a bit then learned some more really got a
Thirst
Took a megabyte to chewed it over spat out all the
Lumps

We need an army sort it out; kill the millennium bugs

Y2K - technology's taking over
Y2K - electronic rollercoaster

Y2K - technology's taking over
Y2K - electronic rollercoaster

So I'm up and running then I crash it says "access
Denied"
But at least I'll go down fighting swimming against the
Tide
Them bugs are really after me I've seen the video tape
Get your revenge in first backslash and escape

Y2K - technology's taking over
Y2K - electronic rollercoaster
