

## Brainpool "Every Day"

Visit "[Every Day](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I've been wasting my life since the day i was born  
My eyes were red and my clothes were torn  
Looking for a new kick every night  
I've been wasting my time and my money too  
Doing silly things I didn't want to do  
But now that I've found you I feel allright  
And everything you want is everything you get

Chorus:

Every day

Every night

Every week

I sing la la la la la

All night long

Hear my song

La la la la la la

This is what I sing

When I'm in love with you

I've been facing some trials before I met you

Been kicked around and beaten blue

But now that I've found you I feel allright

I've been changing my life since the day I met you

You picked me up and you pulled me through

My love for you will never never die

Chorus...

And guess we can't be happy, not all of us

Guess some of us must suffer for lovers joy

Chorus
