I've begun a relationship with 1 - 0
she's not ten, she's better than
any judgement you know
full figur-
ring as pure as virgin snow
100110
100110
010110

she's begun to take my heart and make it smart
like a brain, self contained in my heart
drive
100110
010110
that's all she wrote
100110010110100110010110

glowing blue, missing your gentle kiss
on my lips silent as my finger tips
100110010110
100110010110
I rest my hands
