Tonight our endless hunt begins  
A storm of endless flames  
The moon, the stars, the killing fields  
Only the darkest souls will walk this ground  
Shadows racing through the night  
Like the hordes of ancient times  
Grim faces, hearts of stone  
Armageddon, the final war is on

A legion of forgotten souls  
An army of heathen flesh  
Riding hellion horses  
The midnight sky is our home  
We are possessed, we are immortal  
We are the torment that you feel  
Our journey goes through magic moonlight  
On a path of broken bones

On a path of broken bones  
We are back, forever

Streams of blood on the frozen snow  
Howling wolves, in their forest home  
Torches burning, in a thousand hands  
As we await our ancestors of the darkly sky

Tonight our shadows will fly  
Tonight the sky will cry  
Tonight the ravens fly  
Tonight the final war, the shadow war

We are the northern light, against clear black sky  
With armour of silver and helmets of bone  
The lifestorm is coming, and will slaughter and kill  
As our cloven hooves echo forever

Through endless forests  
You are haunted, you are forlorn
