Crossing the channel of fire  
The wings of the dragon shall carry me high  
The sky so dark and cold  
Known only to the spirits that grew old

We rush towards th ravenclaws  
They silently await to crush us all  
We await the coming  
Cursed as hellbound lizards we all shall crawl

Not the blessed  
Nor the gifted  
We choose the true evil  
Not the feeble

We lords of dogs  
We lords of the hammer  
We lords of swords  
We call upon thee  
Souls of the infernal  
Ghosts of the wicked  
Spirits of all that is evil  
Dance to the masters organ

We call upon you  
Incarnated souls of disaster  
Spread the fire all high and loww  
The ravenclaws have waited to long
