"It is Easy"

Just like the sun
I tried to touch but it's freezing
You are my gun
You know, you can shoot me, it's easy

You wanted a star and I say it is easy
Just like the flame
But my fingers and hands are freezing
You're not the same
I can feel it, you know, it's so easy

You wanted a star and I say it is easy
To fly to the sun but I warn you it's freezing

Caribbean (?) blue ☐ the eyes of my dancing angel
Fire is cold for you my lovely stranger

You wanted a star and I say it is easy
To fly to the sun but I warn you it's freezing

You wanted a star and I say it is easy
To fly to the sun but I warn you it's freezing
