Can I stay at your place tonight?
Everything is gonna be alright!
Tonight we're gonna make it to the top,
And if the sky's not closed we won't stop!

Tonight we'll dance
A pair of horny butterflies.
Tonight we'll dance
Two lovely angels with devil's,
Angels with devil's eyes.

Can I stay at your place tonight?
Everything is gonna be alright!
Tonight we're gonna make it to the top,
And if the sky's not closed we won't stop!

Tonight we'll dance
Hand in hand, with no regrets.
Tonight we'll dance
We don't need no rest,
Someone's flying over cocoo's nest.

Can I stay at your place tonight?
Everything is gonna be alright!
Tonight we're gonna make it to the top,
And if the sky's not closed we won't stop!

We are not asking for,
Give me less, give me more,
That's why butterflies are for - to fly over!

Nature's one night painters,
I'll explain you later.
But while we can dance we do, we do

Can I stay at your place tonight?
Everything is gonna be alright!
Tonight we're gonna make it to the top,
And if the sky's not closed we won't stop!
