Deep down in a jungle  
Or being high in hollywood  
Girls are strangely smiling  
And all the ladies feeling good

We have speakers over speakers  
Devils dancing on a rope  
Flashlights make a fever  
The only thing we miss is hope

When nightlife covers the daylight  
When nightlife covers the daylight  
When nightlife covers the daylight  
When nightlife covers it all

Glitter and the perfume  
Laughter at the backroom  
Another busy, busy day has come  
A busy, busy day crawls like a snake  
And when the snakes catch you in the corner  
Just take a break, take a break take a break!

When nightlife covers the daylight  
When nightlife covers the daylight  
When nightlife covers the daylight  
When nightlife covers it all

Being high in hollywood  
Or deep in a jungle

When nightlife covers the daylight  
When nightlife covers the daylight  
When nightlife covers the daylight  
When nightlife covers it all
