Time goes on and on, I told you the moment all day  
long

Time goes on and on, you're so strong so wrong

Time goes on and on, I told you the moment all day  
long

Time goes on and on, you're so strong so wrong.

No one, no one here

Follow, follow fear

I am, I am here

Follow, follow fear

So long since I've been standing here

From the moment I met you it became so clear

I told you the moment that if you ??? near

You're so strong so wrong

Time goes on and on.

No one, no one here

Follow, follow fear

No one, no one here

Follow, follow fear
