Here she comes  
The summer in her heels  
You can meet her at the station  
To escape for a day

She wants to know  
Existence exists  
So you take her to the places  
That the tourists never see

You lift her up  
And fill yourself full  
You feel so proud beside her  
Well, you walk a little taller

She's a beatific vision  
The world can see  
She's got you tongue-tied  
Got your heart skipping beats

I don't know what it is she's got  
But it's got me  
I don't know what it is she's got  
But it's got me

You meet a lot of women  
Rumbling 'round  
I can tell you in my life  
She's the best I've found

You walk together  
Through the lanes and the parks  
You wrap her in the evening  
'Til the stars come out

(?) back  
Forget all your cares  
You're (?), all that matters  
Is the two of you are there

She says, "The afterlife  
is what you leave behind"

Gonna leave a lot of footprints  
Gonna take a lot of time

I don't know what it is she's got  
But it's got me  
I don't know what it is she's got  
But it's got me

If ever there was blessing in the air  
It was right there  
If ever there was blessing in the air  
It was right there

Beatific vision  
Entwined in one another  
There she goes with summer in her heels
