Don't take me to space, man,
I've had a taste of true love
I don't care that this world's corrupted
I don't want to be abducted

Don't take me away, spaceman
I wanna stay here on this wasteland
I don't care that this world's masonic
I've got true love keeping me on it

Don't take me to space, man
I've had a taste of true love
I don't care if this world's crowded
I gotta get a hand to hold you

Don't take me away, spaceman
I wanna stay here on this wasteland
I don't care that you've got your utopia
I gotta get a hand to hold you

I was pushing me air on this one way drive
sinking, going down, man, I'm happy just to be alive

I was pushing me air on this one way drive
sinking, going down, man, I'm happy just to be alive

So don't take me to space, man,
I've had a taste of true love
I don't care that this world's corrupted
I don't want to be abducted

Don't take me away, spaceman
I wanna stay on this wasteland
spaceman
spaceman
