I thought and I thought till I thought I had think  
But the ship was sinking but it wasn't yet sunk  
And the porcelain we were walking on turned out to be  
thin ice  
Give me two shots once and give me one shot twice

Hey, hey it's a car wheel day  
Better grab it quick before it rolls away  
Hey, hey it's a handstand day  
Better hold onto it

In the corner of my eye, I thought I saw a light flicker  
And I need no medal, I may do with a sticker  
And the hairs on my neck stood up like people can do  
Give me two shots once and take two for you too

Hey, hey it's a car wheel day  
Better grab it quick before it rolls away  
Hey, hey it's a Tarzan day  
Brrrraiaiaiaiaiaiaiaiaia  
Hey, hey it's a car wheel day  
Better grab it quick before it rolls and rolls and  
rolls.....
