Maragrita there's a lot of love leaking,
What a thing to waste.
Margarita would you come and liberate me,
Take me away from this place?
It's here, but it's unclear,
What it's here for
But it's clear,
It's the fear that keeps us under control
Margarita,
If the devil's in the detail,
He's been homogenised,
Redesigned and pre-trialed,
And Demographically assured,
He's here, but it's unclear,
What he's here for.
It's clear, it's the fear,
That keeps us under control
They're all singing,
"Follow The Leader,"
Singing
"Skip To My Lou"
They're all playing Follow The Leader
Again
Margarita there's a lot of blood leaking
What a thing to waste
Smash, smash, five megatons of smash
You gotta see it, it's a riot
It's here, but it's unclear
What it's here for
It's clear it's the fear
Keeps us under control
They're all singing
Follow The Leader
Singing
Skip to My Lou
They're all playing
Follow The Leader
Again.
