A slow walk
Will do you good
Try and take it all in
You said
You'll hold me down
Show me how to turn this mess around
You can cry
No one is looking at you
You can cry, cry
Can't stay
Out of luck
Have trouble trying to wake myself
That's alright
I caught myself
Dragged me up to better health
You can cry
No-one is looking at you
You can cry, cry
You can cry
No one is looking at you
You can cry, cry
All good things must change
And i'd fight it
If i could
All good things must change
I worked myself into a calm
I worked myself
You can cry
No-one is looking at you
You can cry, cry
You can cry
No one is looking at you
You can cry, cry
All good things must change
And i'd fight it, if I could
All good things must change
