"Let Me Move On"

Visit "[Let Me Move On](#)" on MotoLyrics.com

Success and time, have done you right
Your flowers bloomed into the things that we see
Once were well known, you will still need me need me
Im the one that you turn to, cling to, kept you awake
When the monsters cry sleep now, darling
You'll wish i'll take
Now do i have to beg you, remember, all that has gone
All i ask for is my place in history for all that i have
done
Then i'll move on
You done nothing wrong, we all move on
Ypu had the right to see how, far you could go
But now i'm alone. it's time to recognise
There's a debt to repay, i wont get in your way
You will still need me need me
Now do i have to beg you, remember, all that has gone
All i ask for is my place in history for all that i have
done
Then i'll move on
Let me move on
Im the one that you turn to, cling to, kept you awake
When the monsters cry sleep now, darling
You'll wish i'll take
Now do i have to beg you, remember, all that has gone
All i ask for is my place in history for all that i have
done
Then i'll move on
