I, I cross the road and I hide
Just to avoid the times
When you sat at my side
So battered by the tide

A wreck exposed at my door
My eyes they cannot lie
So get up from the floor
For you, you've had your time

Your chance has gone
You're not so strong
Your tongue, they cannot harm me now

I cross the road and I hide
Just to avoid the times
When you sat at my side
So battered by the tide

Your chance has gone
You're not so strong
Your tongue, they cannot harm me now

With all the things that I've said
I'm still haunted by you
In every town, in every place, you're waiting

Then on my tongue lies disgrace
I'm still haunted by you
Yes, you, you're in my way

With all the things that I've said
I'm still haunted by you
In every town, in every place, you're waiting

From(incomprehensible)to the grave
I've been haunted by you
Yes, you're in my way

With all the things that I've said
I'm still haunted by you
In every town, in every place, you're waiting

And on my tongue lies disgrace
I'm still haunted by you
Yes, you're in my way

With all the things that I've said
I'm still haunted by you
In every town, in every place, you're waiting

And on my tongue lies disgrace
I'm still haunted by you
Yes, you, you're in my way
