Hello, hello, hello
Welcome to the world
The sky looks brighter
I know, I know, I now
We could have more
If only

Hello, hello, hello
At last I'm satisfied
At last I have arrived
We know, we know, we know
We don't want more

You and I
One on one
The offer stands
I still know how to make love
With love, my love

Hello, hello, hello
Welcome to the fold
The neon's brighter now
We know, we know, we know
We don't want more

You and I
One on one
The offer stands
I still know how to make love
With love, my love

Me and you
We are due
The world on cue
I still know how to make love
With love, my love

They said
You'll never walk again
Invalid until the end
We're giving the world

The kick it requires
If you can't see why
Look into my eyes

I used to think
I had been on the planet too long
No intension to end this dull ache
But with you on my arm
No, the feelings not gone
But I'm starting to think that it might
Can you pull me along?
Can you show me the sun?
I'm convinced I can do more than hate
Because with you on my arm
No, the feelings not gone
Soon be leaving it dead in my wake
