I still remember how it was
Lost and lonely without a cause
Shades of gray on empty blue
Hopeless changes I was going through

But then you came
And you brought me home
Rescued me from all alone
Lifted me right out of time
Soothed my spirit and
You changed my mind

(CHORUS)

You got me running
And I'm rolling like the sea
And I didn't know
How strong a love could be
You got me running
And I'm rolling like the sea
And I didn't know
How strong a love could be

So hold me higher day by day
Let your sunshine shine my way
Let your rainbows fill my sky
Take my hand and watch me fly

(CHORUS) 2X
