She'll be sleeping, no doubt  
She'll be tired, tired out  
Won't you speak for yourself  
Will you never be heard

Do your friends and neighbors  
Regard you as a threat  
I'll just consume be silent and die

I'm just shaving my neck  
For maximum effect  
I'm just shaving my neck  
For maximum effect

Please release me, ah, let me go  
Oh, please release me, ah, let me go

I don't love, love you anymore

There's no love, there's no love  
There's no love, there's no love  
There's no love, there's no love  
There's no love, there's no love

I'm just shaving my neck  
For maximum effect  
I'm just shaving my neck  
For maximum effect
