Don't mention Donna, when I'm around
When I hear her name, the world just turns upside down

chorus-1

To others Donna means beauty
Donna means heaven, Donna means ecstasy,
But Donna means heartbreak to me

I still remember, her soft caress, the touch of her lips
and the warmth of her tenderness

repeat 2

She ran around, like as there was no tomorrow
And every boy in town, new the thrill of Donna's feel
And all the time, I thought she was mine
She belonged to everyone, everyone, every, every, every
one

Instrumental

repeat 3

Donna means heartbreak to me
