Â“SOMEBODY HELP MEÂ”

Recorded by Gene Vincent on Capitol Records 1958

Song written in 1957 by Bob Kelly BMI

I've got a bone to pick with this world,  
I'm not very handsome, I cant find a girl.  
I ask the aid of the whole Universe.  
I'm not very happy, it could be worse.

Somebody Help Me----eeee.  
Somebody Help Me----eeee.  
Somebody Please, Somebody Please Help Me---eeee.

I'm in luck now that I've found,  
the birds and the bees are helping me round.  
The birds are singin' their songs of cheer,  
Love will escape me, I fear.

Chorus

=====SOLO=====

Moon is a glitter from up above,  
but I've yet to find me someone to love,  
the breeze keeps whispering to my ear,  
lonesome Baby without you here.

Chorus

=====SOLO=====

Stars are twinklin in the sky,  
finally caught this little girls eye.  
I've stopped roamin this country over,  
Luck has found me, I've got a four leaf clover.

Chorus

Somebody Please, Somebody Please Help Me.
