Nobody has to tell her that I've changed
I do my best to show her every night and every day
Now my ring stays on my finger and I get my love at
home
I'm building my world around the girl I used to run
around on.

I'm building my world around the girl that's everything I
need
For when I was blind and cheated, she held on tight to
me
And when I was weak her arms reached out
Her soft love made me strong
I'm building my world around the girl I used to run
around on.

Now I hold her every evening and I miss her all day
long
I'm building my world around the girl I used to run
around on
I'm building my world around the girl I used to run
around on.
