(Joe Allen)

I wish I'd have a circle driveway
There's too much for me to leave behind
If I only had a circle driveway
I'd just ride around and wave goodbye.

Well, I'll slam it in reverse to watch the traffic
I don't want the kids to see me cry
It's time to find a new direction
I'll do my best to get it in the drive.

I really can't believe she packed my suitcase
I can't believe that both her eyes were dried
The only thing we didn't have together
Was a right now badly need that circle drive.

I wish I'd have a circle driveway
There's too much for me to leave behind
If I only had a circle driveway
I'd just ride around and wave goodbye.

I wish I'd have a circle driveway
There's too much for me to leave behind
If I only had a circle driveway
I'd just ride around and wave goodbye...
