(Hank Cochran)

Yes, I'm down and might be here forever
I could get up but I don't have the heart
'Cause you're all that held me together
And when you turned loose I fell apart.

And baby I can't get me back together
'Cause without you I don't even want to start
'Cause you're all that held me together
And when you turned loose I fell apart.

Somehow I know I'll never know the answer
The reason of when or where to start
'Cause you're all that held me together
And when you turned loose I fell apart.

--- Instrumental ---

Yes, you were all that held me together
And when you turned loose I fell apart...
