(Joe Allen)

There's a new car in the driveway and some money I
don't need
And there's a pickup in the backyard that no one likes
but me
We already raised the children like an old time they'd
be gone
So honey, let's give up or get it on.

I can say this life I've shared with you was anything but
good
And if I could find the love we had Lord knows you
know I would
We've got everything to live with but everything's
almost gone
So honey, let's give up or get it on.

I've been pullin' this old load so long I'm almost out of
tracks
But I hope that you're who somehow finds the love that
brings me back
I guess I'm like my pickup truck I've been gone too hard
too long
So honey, let's give up or get it on.

So honey let's give up or get it on...
