[Mr. Shadow]

Yeah, it's the shadow of your death
One more time at your ass
Money and Greed caused all these evil deeds
So watch your ass mothafucka

I can hear them evil voices callin my name
My mental state is at it's peak
I'm chokin you son of bitches and ditches is where you sleep
I creep through the night with daggers bow an arrows
machetes
These mothauckas better be ready I'm bringing hell on
them like Freddy
On daily bases I'm smashin faces not leavin traces you
hate this
You're not even knowing when ever you're going to the
wrong places
At the wrong time that I'm doing my krime
if you cross that line your ass is mine
I'm sneaking up from behind slashin your neck not
wasting no time
My rhymes be causing dreams that cause death
Like meth I got your sprung
I got you picturin shit like dippin acid on your tongue
I hung around with crazies way before I was teen
Packing a glock not given a fuck I'm puttin an end to all
your dreams
It seems like I'm surrounded be vultures beggin for
torture
I told all you petty fools not to fuck with this soldiers
I'm colding then avalanches it takes a master mind to
plan this
And you're askin how I handled this with pictables and
axes

[Mr. Lil One]

Fool you should of been known
That I be the one holding the key to where you go

[Mr. Shadow]

So close your eyes mothafucka

[Mr. Lil One]

Fool you should of been known

That I be the one holding the key to where you go

[Mr. Shadow]

It's time to die mothafucka

(Repeat 2x)

[Mr. Shadow]

Late night I got you tossin and turnin your soul is
burning

At first you thought it was a dream but no longer
returnin

As you lie but naked like a body inside of a tomb
You got suspended animation as I slept in your room
It's The Shadow 'â, -Å“One Man Battalion'â, -Å better
not be on my horizon

Cause I'm dressin in disguises open up to see with your
eye

Suprisin the rival when you least expect it
Ain't no survivors or witness cause that just
unexcepted

My finger is tempted to pull the trigger and blow a
mothafucka to peices

I'm seperating them uncles from all their nephews and
nieces

So Jesus help these bastards stay away from the sicko
And if you need a little help then give this demon a
whistle

The pistol is bustin I'm trustin no one but myself
And you better be ready for wars when ever you hear
me up at your doors

No more surprises so close your eyes and don't resist
In the gallery of evil all we do is triple 6 bitch

[Chorus]

[Mr. Shadow]

Canibusateva got me thinkin my plot

And how I want these mothafuckas covered up with my
shots

When the glock pops and the fool drops

I'm leavin no evidence for the cops

Fuck those punk I'll buck them too and stash their limbs
in the slums

The circumstances gettin critical with this lyrical demon
I'm leavin you weak sons of bitches in ditches no longer
breathen

I'm hearin your mother cry and you're trying hard to

survive
Mothafuck you and your momma cause you're both
bout to die
So I look in your eyes and ask you how does it feel
Do know in a matter of moments you'll see your mother
get killed
Get chills up and down your spine you can feel your
stomach turning
Nausiated for the fact that it's murder I'm yearin
So burnin them crusifixes Satan bless me with them 6's
Getting rid of them noises mothauckas all in my
business
You witness you die, mothafucka don't ask me
You's a dead mothafucka any ways so shut your eyes

[Chorus]

[Mr. Shadow]
Oh yeah, and keep in mind
That what ever you do, what ever time it is
And what ever plot you're doing
I'm there to witness it 24/7 on the clock
Ha Ha and it don't stop
